PROFESSIONAL PROFILE

Frontend-focused Full Stack Developer with 4+ years of experience developing and deploying production web applications using React.js, Next.js, TypeScript, and JavaScript. Built custom, responsive interfaces for business dashboards, booking platforms, and customer-facing applications — including **end-to-end ownership of architecture and deployment** for an SEO-driven, location-based platform and a complex invoicing/business-management system. Practical experience with REST APIs, Node.js, and MongoDB for full-stack integration.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Unnati Tech Consultants **Apr 2026 – Present** | Remote, India

- Developed a corporate website using **Next.js** and **React.js/Tailwind CSS** with custom UI components across business, solutions, and industry pages
- Implemented contact forms with server-side API routes, validation, and email notifications; deployed to production on **Vercel**

Software Developer | FuelBuddy, UAE **Jul 2025 – Dec 2025** | Gurugram, India

- Redesigned UI components (styling, layout, data-fetching) using Vue.js in a live production codebase for an **international team**
- Adapted quickly to a Vue.js-based tech stack, applying existing React.js/JavaScript fundamentals in a new framework environment
- Performed **API testing and data validation** using Postman and browser network tools
- Collaborated using **Git, GitLab, and Jira**, managing tickets end-to-end from pick-up to code review

Full Stack Developer | BHUMU Group **Jun 2023 – Jul 2025** | Noida, India

- Independently designed, developed, and deployed numerous production web applications as the sole developer — from same-day landing pages to complex full-stack platforms
- Built garageoncall.com with SEO-optimized, URL-based location page architecture, and invoician.com, a complex invoicing/business-management platform with OTP/Google OAuth, nested APIs, and financial calculations
- Managed production deployments independently on Ubuntu VPS (NGINX, PM2, SSL) — resolved a critical server outage under business-critical pressure

Web Designer → Frontend Developer | Digiream **Jul 2022 – May 2023 |** Delhi, India

- Started as a **Web Designer**, using Photoshop and HTML, CSS, and Bootstrap to build responsive webpages and UI
- Promoted to **Frontend Developer**, building interfaces with React.js and JavaScript
- Supported backend and database-related tasks using Node.js, Express.js, MongoDB, and REST APIs

SELECTED PROJECTS

invoician.com – Business & Invoicing Management Platform

Developed a complete business application for invoicing, customers, inventory, sales, purchases and reports with complex **REST APIs**, dashboards, calculations, **JWT, Google OAuth** and role-based access.

garageoncall.com – Vehicle Service & Booking Platform

Built a scalable, API-driven service and booking platform with **dynamic, SEO-optimized page architecture** using URL-based location keyword mapping — significantly improved **local search visibility**.

glazma.com – Salon & Service Booking Platform

Built a service/package booking platform with a **Redux-managed cart** and streamlined checkout form, capturing booking details via email and database in real time.

fluffytouch.in – Pet Care Platform

Developed an **API-driven** pet care platform with services, packages and a centralized **admin system**.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux
- **Backend:** Node.js, Express.js, REST APIs, MongoDB, PostgreSQL
- **Tools & Deployment:** Git, GitHub, GitLab, Jira, Postman, Ubuntu Server, NGINX, PM2

EDUCATION

Jan 2024 – Feb 2026
Master of Computer Applications (MCA)
Lovely Professional University (Online)

Aug 2019 – Jul 2022
Bachelor of Computer Applications (BCA)
Institute of Information Technology & Management, New Delhi
