 Eligible to Work in Germany | Available for Immediate Start

Professional Summary

Full Stack Developer experienced in building, deploying, and maintaining web applications using React.js, Next.js, Node.js, TypeScript, and MongoDB. Hands-on experience across frontend development, REST API integration, database management, and production deployments using Ubuntu, NGINX, and PM2. Worked on business platforms, dashboards, booking systems, and customer-facing applications used in real-world environments.

Professional Experience

Jun 2023 – Jul 2025 **Full Stack Developer** | BHUMU Group
Noida, India

- Developed and maintained production web applications using Next.js, React.js, Node.js, TypeScript, and MongoDB.
- Built dashboards, booking systems, and business management platforms for different industries. Developed and integrated REST APIs across frontend and backend systems.
- Managed deployments on Ubuntu VPS servers, including NGINX, PM2, SSL setup, and domain configuration.
- Delivered and maintained multiple live applications from development through production deployment.

Key Projects

- **Invoician** – Business invoicing and management platform with dashboards, authentication, and workflow management.
- **Garage On Call** – Vehicle repair and maintenance booking platform with appointment scheduling and service management features.
- **Glazma** – Grooming services platform with cart functionality, booking workflows, and customer-facing interfaces.
- **Fluffy Touch** – Pet care and grooming platform with service discovery and booking management features.

 **Core Technologies:** Next.js, React.js, Node.js, TypeScript, Express.js, MongoDB, Redux, REST APIs, Ubuntu, NGINX, PM2

- Jul 2025 – Dec 2025** **Software Developer – Product Development** | FuelBuddy, UAE
Gurugram, India
 - Contributed to product development within a large engineering team supporting customer, driver, and operations workflows.
 - Worked with Vue.js, TypeScript, GraphQL (Hasura), PostgreSQL, and Docker in a product development environment.
 - Collaborated with cross-functional teams using GitLab and Jira following agile development practices.

 **Technology Exposure:** Vue.js, TypeScript, GraphQL, PostgreSQL and Docker.
- Jul 2022 – May 2023** **Web Designer → Frontend Developer → Backend Support** | Digiream
Delhi, India
 - Started as Web Designer (3 months)**
Designed responsive user interfaces using HTML, CSS, Bootstrap, and Photoshop. Created user-friendly layouts aligned with business requirements.
 - Promoted to Frontend Developer (6 months)**
Developed interactive web applications using React.js, HTML, CSS, Bootstrap, and JavaScript. Collaborated with designers and backend developers to deliver responsive user experiences.
 - Promoted to Backend Developer Support (2 months)**
Assisted backend development using Node.js, Express.js, and MongoDB. Supported API integration and database-related tasks.

Education
